

The Gallery

The gallery has two rooms available for exhibitions. One large room & one smaller room. Both rooms are laid with lovely LVT Chestnut flooring with clean white walls, perfect for displaying artworks. (See floor plan on Page 2 for further details).

The larger room is our main gallery space where we have our gallery gift-shop and reception area. The smaller room is mainly used as a photography studio but can be easily converted into a gallery space either on its own or combined space with the larger room. This is achieved by moving the dividing wall between the two spaces.

The dividing wall can be configured as additional hanging walls for displaying artworks during exhibitions. Additional Z panels walls are also available for hanging artworks.

Both rooms are fitted with a sophisticated track lighting system, and with adjustable hanging systems to suit for all artworks.
